Convair Supercool

"Smart portable air conditioning unit with heat pump"

Convair has designed a compact and versatile model that generates 12,000 Btu of cooling in summer and 12,000 Btu of heating in winter.

So that depending on the cycle, summer or winter, you can control the room temperature simply by pressing a button: the compressor will cool or heat to obtain the desired "comfortable temperature"

**Moving Cool spot cooler**

Conventional air conditioners are typically used to cool an entirely enclosed area to reduce the ambient temperature of the environment.

Although capable of fulfilling that purpose, 'spot cooling' provides immediate and targeted impact. Within minutes, temperatures can be substantially reduced by a stream of powerful cool air.
