

Evaporative Coolers

Prestige

The Prestige combines contemporary styling with superior performance to provide the perfect cooling solution.

Introduction

The Prestige is a high quality evaporative cooler that delivers cool, fresh "sea breeze" air at low running costs. It is ideal for cooling a wide range of well ventilated environments including office, retail and reception areas.

Operation

Set on strong twin castor wheels, it is easily moved into position and requires no permanent installation or window exhaust.

The unit features the auto air-deflector rotating grille and three fan speeds for controlled even distribution of cool air wherever you are in the room.

Excellent Design

Its sleek, streamlined, space-efficient design enables it to blend perfectly with any interior while its strong polymer construction ensures a long corrosion-free life.

Economical to Run

It delivers an air flow of 864m³ per hour, using as little as 85 Watts of power.

Key Features

- Economical to run
- Very quiet in operation
- Environmentally friendly
- Easy to use controls
- Durable construction

Environmentally Friendly

The Prestiges provide filtered cool air, creating a comfortable environment without using any harmful CFC gases.

- Rotating grille to distribute cooled air
- 3 fan speed settings
- Virtually maintenance free
- Low running costs
- Water level indicator

Technical Specifications

	Prestige	
Power Requirement	Volts	230
	Hz	50
Power Consumption	Watts	85
Water tank capacity	litres	15
Air Flow	m ³ /hr	864
Fan Speed Settings		3
Electrical Supply	Amps	13
Dimensions (H x W x D)	mm	1026 x 615 x 265
Weight	Kg	11.4
